---

Brian,

Pls coordinate w/Doretha to see if you need to have staff charge this special account to T, and if so, what project code to use (i.e. 06MCxx00)? If staff will need to amend PP+, pls let me know dollar amount of amendments needed.

Thanks,

Patti

Can you please send me the correct code to share with the Falcon Refinery Team. The special accounts (TR2 and TR2B) for the site are very low and I need to conserve/use the remaining funds for travel to the site and fund the ongoing RI report. I may also need for Team members to go back and amend their People Plus from (TR2 and TR2B) to T.

Thanks
